MD SAHIL

studymail2255@gmail.com linkedin.com/in/md-sahil-2241602bb Barasat, WestBengal, India

PROFESSIONAL SUMMARY

Bachelorof ComputerApplications (BCA) student with hands-on experience in web development and basic programming. Proficient in HTML, CSS, JavaScript, and database fundamentals. Strong problem-solving skills, eager to learn, and looking for an entry-level role or internship to apply academic knowledge in practical projects.

ACADEMIC HISTORY

BergramPalliSevaniketan High School (H.S) | 2021-2023

Secondary(2021) HigherSecondary (2023)

- Marks: 89.43%
- Marks: 68%

Brainware University | 2023-2027

Bachelorof Computer Applications.(On going)

- CGPA: 8.91 (till 6th semester)

SKILLS

Technical Skills:

HTML	Python	JAVA
CSS	DSA	C
JavaScript	DBMS	Excel

Soft Skills

Problem-Solving & Analytical Thinking	Adaptability & Quick Learning
TeamCollaboration & Communication	Project Documentation & Presentation

PROJECTS

COVID-19Data Tracker (Mini Project)

Excel

- Collected district-wise COVID data
- Created bar and line charts to analyze trends

Student Performance Analyzer

Python | Pandas | NumPy | Matplotlib | CSV

- Developed a Python-based application to analyze student academic performance from CSV datasets.
- Calculated total marks, percentages, grades, subject averages, and student rankings.
- Generated visual reports and charts to identify performance trends and compare subjects.

Hotel Management & Reservation System

MySQL | SQL | HTML | CSS | JavaScript

- Designed a relational database to manage customers, rooms, room types, reservations, payments, services, and feedback.
- Implemented SQL queries using JOINs, subqueries, aggregate functions, constraints, and database relationships to manage and analyze hotel data.
- Developed a lightweight web interface for room availability, customer registration, reservations, and database record management.

Bank Management System

Java | OOP | Collections | Exception Handling | File Handling

- Developed a console-based banking application to manage customer accounts and basic banking operations.
- Implemented account creation, deposits, withdrawals, balance checking, money transfers, and transaction history.
- Applied OOP principles including encapsulation, inheritance, polymorphism, and abstraction.

Expense Tracker

HTML | CSS | JavaScript

- Built a responsive expense tracker with CRUD operations, category/month filtering, dynamic dashboard statistics, and LocalStorage persistence.
- Implemented DOM manipulation, event handling, form validation, and dynamic expense rendering.
- Designed a clean dashboard using CSS Flexbox/Grid with expense summaries, category breakdown, and transaction history.

CERTIFICATION

Certificate in Data Representation and Visualization | 2024
Brainware University, Barasat — Grade: A+
Duration: 30 hours | Completed: July–August 2024

Data Analytics Job Simulation | 2025
Deloitte (via Forage) — Certificate of Completion
Completed: July 21, 2025
Skills Gained: Data analysis, forensic technology

GenAI Powered Data Analytics Job Simulation | 2025
Tata (via Forage) — Certificate of Completion
Completed: August 5, 2025
Skills Gained: Exploratory data analysis, AI-based risk profiling, delinquency prediction, business reporting, AI-driven collections strategy

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional | 2025
Oracle University — Certificate of Completion
Issued: October 2025 | Valid till: October 2027
Skills Gained: Generative AI fundamentals, OCI AI services, model deployment, AI workflows, cloud AI solutions
